DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard Machonkin (Reg. No. 41,962) on April 18, 2007.

Regarding Claim 7, Please replace the word **"use"** in line 6 with the words **"transmit at"**.

Regarding Claim 16, Please insert the word **"initial"** in between the word **"station"** on line 4 (step (b)) and the word **"transmit"** on line 5 (step (b)). Please insert the word **"initial"** in between the word **"station"** and the word **"transmit"** on line 6 (step (c)).

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

It is well established in the Prior Art that CDMA systems conduct closed-loop power control in which a quality metric such as Eb/No is compared to a set point and a transmit power control (TPC) command is sent to the mobile station or base station instructing the mobile station or base station to adjust the power based on comparison.

Art Unit: 2618

The prior art of record, however, fails to teach or show **based on the location of a mobile station, the base station selecting an initial power level of a primary communication channel for communication from the mobile station to the base station and instructing the mobile station to transmit at the initial transmit power level.** Claim 1, including all of the claims that depend directly or indirectly from Claim 1, Claim 7, including all of the claims that depend directly or indirectly from Claim 7, Claim 16, including all of the claims that depend directly or indirectly from Claim 16, and Claim 24, including all of the claims that depend directly or indirectly from Claim 24 are therefore allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

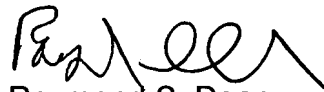

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Raymond S. Dean whose telephone number is 571-272-7877. The examiner can normally be reached on Monday-Friday 6:00-2:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Edward F. Urban can be reached on 571-272-7899. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
